

REJUVENATE

your skin with

Collagen

Full body
RED LIGHT therapy

Natural, gentle noninvasive treatments

“

I have a more youthful glowing appearance, I believe, for me, this treatment beats any topical cream for value and results – and, an added bonus is, ... it's sooo relaxing!

”

Treatment Regime

- Initially; 2-3 times per week for 10–12 weeks
- Ongoing; Once every week to 10 days

Session Preparation

- Clean skin
- Optional application of red-light products to help produce better results faster.

Collagen Red Light Treatments bring long term improvements in your skin and restores it's youthful strength. It takes time for the structure of your skin to improve so there are no instant results. You are however, likely to feel your skin becoming softer and smoother after just a few treatments.

HOW DOES RED LIGHT WORK?

As Scientific research and medical practice proved long ago, light stimulates healing, reduces pain and has a vitalising effect at different wavelengths. Red collagen light, with a wavelength of 620nm, penetrates to a depth of 10mm under the skin surface and influences cell activity.

The connective tissue of our skin is partly made up of protein fibres, collagen and elastin. One supports our skin while the other gives elasticity. Special cells, called fibroblasts, constantly produce these proteins and thus keep our skin elastic and fresh looking.

We are able to regulate this constant reproduction process ourselves up until our mid-twenties. From this age cell activity decreases so the skin becomes loose and wrinkled. Red collagen light effectively stimulates your bodies natural collagen reproduction process again.

Testimonials

"The scar on my leg, is now hardly noticeable and is less sensitive. My nails are stronger and look healthier, my stretch marks smoother with the colour and texture less noticeable."

"Having now had 6 months of maintenance sessions, I am still seeing improvements in my skin tone and texture." **Janis NZ**

"Collagen red light treatment, so relaxing after a long day at work, lie back and forget about everything while doing great things for the entire body, my treat each week." **Ros NZ**
